ALKALINE WATER 碱性水

Do you know that alkaline minerals are essential to our overall wellbeing?
你知道碱性矿物质对我们人体的整体健康至关重要吗？

Without minerals, we'll suffer a lot of diseases and may not achieve the longevity of life we've always dreamed of.

如果我们缺少矿物质，我们就将遭受很多疾病并且有可能活不到我们一直梦想的寿命。

Unfortunately, these minerals cannot be produced by the body and can be obtained only from external sources like water and food. However, minerals in water can be absorbed better compared to those found in fruits and vegetables. Especially from Coral Pure structured natural alkaline water purifier that has smaller cluster size molecules.

不幸的是，我们的身体是无法产生矿物质的，只能从外部获得，如水和食物。然而，与水果和蔬菜相比，水中的矿物质可以被更好地被人体吸收。特别是来自 Coral Pure Natural结构化的天然碱性净水器，此净水器具有更小的团簇大小的分子。

In Singapore, PUB is currently doing a good job, supplying quality water that meets WHO standards, better than many developing countries. But the water supplied today still contains impurities and not quite like the natural alkaline spring water, pristine water that our ancestors enjoyed.

在新加坡，PUB目前工作良好，提供符合WHO（世界卫生组织）标准的优质水并且比许多发展中国家做得更好。但如今供应的水中仍然含有杂质，和我们的祖先所享受的天然碱性泉水，纯净水大不一样。

CORAL PURE的诞生

Benefits of Natural Alkaline Water (Spring Water) V/S Artificial Electrolysis Ionized Alkaline Water

天然碱性水(泉水)的好处与人工电解离子化碱性水的比较

Do You Know the difference?

ARTIFICIAL ALKALINE WATER

Artificially alkaline water undergone a process call **ionization or electrolysis** to split apart water molecules with electricity to artificially create alkaline water.

The process uses **metal plates** to separate Positive and Negative Ion to generate alkaline water, **without using Natural Alkaline Minerals.**

NATURAL ALKALINE WATER

Coral Pure's Alkaline Hydrogen water system **re-mineralise** the water with **72 minerals** from coral stones such as calcium, magnesium, potassium, iron, and zinc.

The water is high-quality natural antioxidant alkaline hydrogen mineral water that only **contains essential minerals.**

Why You Should Stop Drinking Artificial Alkaline Water?

ARTIFICIAL ALKALINE WATER

Depletes your body of these minerals by **tricking your body** into thinking it has enough alkalinity, which prompts it to **release your reserve of alkaline minerals** through the kidneys and out of your body.

Ultimately, you'll end up **deficient in these minerals**, with your health suffering as a result.

NATURAL ALKALINE WATER

These minerals are also **powerful natural antioxidants** that drive away **free radicals** that cause ageing. They are in **smaller cluster size molecules**, allowing for **easier absorption** into the body. The real value of natural alkaline water for your health and wellbeing comes from the minerals **transfused by the rocks in the spring.**

WHY DRINKING CORAL PURE

为什么选择CORAL PURE

The truth of the matter is that for human beings, nothing is more beneficial to health than water and air. While the right diet and exercise can improve overall health, there is nothing quite as effective in this quest as drinking the right water.

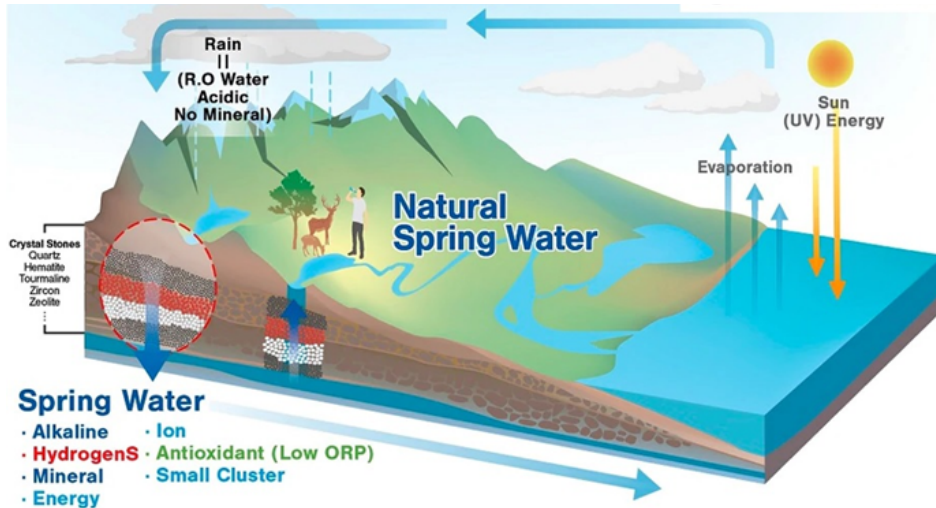

对人类来说，没有什么比水和空气更有益于健康的了。虽然健康的饮食和锻炼可以改善整体健康，但是，没有什么比喝健康的水更有效了。

On the other hand, if we don't drink good water, it can be just as adversarial to our health. To understand about 'wrong' and 'right' water, we must first learn the different categories of water. Alkaline water stands among one of the simplest ways to opt for good health, but is divided into two categories. Let us learn more about these categories, shall we?

另一方面，如果我们不喝质量好的水，我们的健康状况就会下降。要了解“对的”水与“错的”水，首先要了解水的不同种类。碱性水是保持健康最简单的方法之一，但分为两类。那么就来让我们更多地了解这些类别吧！

WHY DRINKING CORAL PURE

为什么选择CORAL PURE

The popularity of alkaline hydrogen water is due to the presence of various longevity natural miracle spring water around the world. Such miracle spring water have something in common:

碱性氢水受欢迎的原因是世界各地存在的各种长寿的自然奇迹泉水。此类神奇的泉水的共同点:

1) They provide essential minerals like calcium, magnesium, iron, zinc, silica, potassium etc.

提供基本的矿物质，如钙、镁、铁、锌、硅、钾等。

2) These minerals contribute to alkalinity of water with PH between 8-9+
这些矿物质有助于将水的PH值保持在8-9+之间

3) It contains antioxidant hydrogen with ORP around -50 to -100mv, dissolved hydrogen from 100-200 ppb or 0.1-0.2 ppm, and dissolved oxygen value of about 15-20 ppm.
水中含有抗氧化氢，ORP在-50到-100mv之间，溶解氢在100-200 ppb或0.1-0.2 ppm之间，溶解氧值在15- 20ppm左右。

4) Most importantly, it contains minimum harmful TDS (total dissolved solid) as it is natural and not treated with harmful chemicals like chlorine or fluoride, and harmful metals like lead etc.

最重要的是，此类水中含有最小的TDS有害量(总溶解固体)，因为它是天然的，没有经过有害化学物质如氯或氟化物的处理，也不含铅等有害金属。

WHY DRINKING CORAL PURE

为什么选择CORAL PURE

Electrolysis ionized alkaline water, more popularly known and one that shows up on the search engine easily when you search for Alkaline water. As the name suggests, this water is created artificially by the form of electrolysis. Tap water passes through an electric ionizer, in which water molecules are forcibly split and pushed through metal plates of platinum and titanium. By this process, platinum and titanium ions are exchanged, which leads to higher PH in water.

人们对电解离子化碱性水是熟知的。当你搜索碱性水时，这个名字很容易出现在搜索网页上。顾名思义，这种水是通过电解的方式人工生成的。自来水在电离子发生器中，水分子被强行分裂并推入铂和钛金属板。通过这个过程，铂和钛离子交换，导致水中PH值升高。

电解碱性(人工)离子发生器：

Subsequently, research has found that this overtly charged machine alkaline water of platinum and titanium has health hazards. The alkaline level in water might be high, but the toxicity increases too.

随后，研究发现，这种明显带电的机器碱性水的铂和钛有着健康危害。水中的碱性水平可能过高，毒性也会增加。

This results in the bone and skin facing problems due to the lack of minerals that are caused by the body trying to support the high level of pH.

由于缺乏矿物质，这将会导致骨骼和皮肤问题，这是由身体试图支持高pH值造成的。

WHY DRINKING CORAL PURE

为什么选择CORAL PURE

World Health Organization has released its caution message against drinking water that isn't rich in minerals. The high pH in artificial alkaline water makes the body think it is receiving minerals when in reality, the bones end up sacrificing its minerals to make up for the lack of minerals in water.

世界卫生组织发布了对饮用不含矿物质的水的警告。人工碱性水中的高pH值使人体认为它正在吸收矿物质，而实际上，骨骼最终会牺牲矿物质来弥补水中矿物质的缺乏。

Other than health, Artificial Alkaline water can be expensive, as the metal plates require frequent maintenance which can only be done in service center.

除了健康以外，人工碱性水可能很贵，因为金属板需要频繁的维护，而且只能在服务中心进行。

In short, Electrolysis Alkaline (Artificial) Ionizer is more suitable for use in Japan and Korea due to following factors:

总而言之，电解碱性(人工)离子发生器由于以下因素更适合在日本和韩国使用:

1. It often builds with very basic purifying pre-filters (1 to 2) and is more suitable for cleaner water so as to retain minerals.

它通常带有非常基本的净化预过滤器(1到2个)，更适合于更干净的水，以便保留矿物质。

2. Both countries' tap water have much higher natural alkaline minerals, supporting high level of artificial alkaline water.

两国的自来水中含有较高的天然碱性矿物，对人工高碱性水是有帮助的。

In view of the above factors, electrolysis alkaline ionizer is not recommended for Singapore and other countries due to the nature of tap water.

鉴于以上因素，由于自来水的自身属性，不建议在新加坡等国家使用电解碱性离子发生器。

WHY DRINKING CORAL PURE

为什么选择CORAL PURE

Therefore, our customers who previously used such machine face significant health issues such as body aching, skin health, urine acid, gout, constipation, kidneys pain etc after daily consumption over a year.

因此，那些在过去一年中每天都用此机器的顾客都面临着严重的健康问题，如身体疼痛、皮肤健康、尿酸、痛风、便秘、肾脏疼痛等。

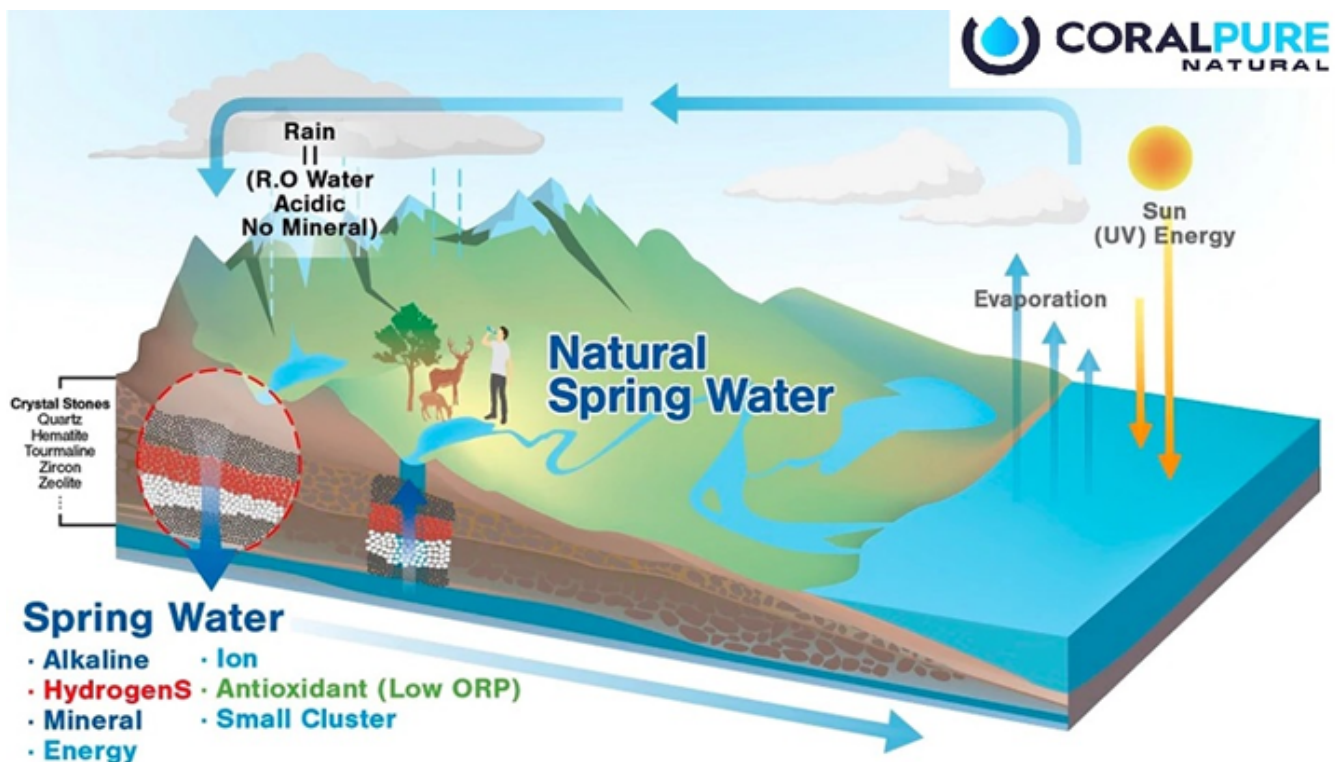

However, this group of customers found their health condition improve greatly within 2 to 3 months after switching to Coral Pure Natural Alkaline water.

然而，这些顾客发现，在改用Coral Pure纯天然碱性水后，他们的健康状况在2至3个月内大有改善。

BENEFITS OF NATURAL ALKALINE WATER 天然碱性水的好处

Natural Spring water has mineral contents such as magnesium and calcium, both of which are recommended by the World Health Organization. If these minerals can become part of drinking water, a healthier body is guaranteed. Natural Alkaline Water is essentially modeled after Natural Spring water.

天然泉水含有镁和钙等矿物质，这两种物质都是世界卫生组织推荐的矿物质。如果这些矿物质能成为饮用水的一部分，身体就会更健康。天然碱性本质上是与天然泉水类似的。

If you look at mountain spring, when the water flows down and clashes with the rocks, it absorbs minerals that naturally increases the alkalinity level of the water. This process is dubbed as “Natural Ionize water.”

如果你观察一下山泉，当水流下并与岩石发生碰撞时，它会吸收矿物质，水的碱度自然而然地增加。这个过程被称为“自然离子水”。

BENEFITS OF NATURAL ALKALINE WATER 天然碱性水的好处

Natural Alkaline water does the exact opposite of Artificial alkaline water. The acidity in the human body is lowered with the help of this, along with a significant increase in one's energy level and visible slower aging. It can assist in weight loss, refreshes the skin and helps in detoxification of the body, improve immunity and maintain overall wellness.

天然碱性水与人工碱性水完全相反。在这一帮助下，人体的酸度降低了，能量水平显著提高，衰老速度明显减慢。可以帮助减肥，让皮肤清爽起来，帮助身体排毒，提高免疫力，保持整体健康水平。

Therefore, many studies also confirm people in longevity villages enjoy better health due to pure and clean Natural antioxidant hydrogen alkaline minerals water with 7.5 to 9.5 PH.

因此，许多研究也证实，长寿村的人们由于饮用纯天然的抗氧化氢碱性矿物质水，他们的PH值在7.5到9.5之间，身体更为健康。

NATURAL CORAL CALCIUM & MINERALS 天然珊瑚钙与矿物质

Do you know Okinawans' longevity is due to Natural Coral Calcium & minerals?

你知道冲绳人的长寿的原因是天然珊瑚中的钙和矿物质吗？

Many studies confirm high majority of people living in Okinawa enjoy better health and free from chronic diseases mainly due to good drinking water with presence of natural antioxidant hydrogen alkaline & essential minerals from Coral.

许多研究证实，居住在冲绳的大部分人的身体是健康的，没有慢性疾病，这主要是因为冲绳拥有良好的饮用水源，以及来自珊瑚的天然抗氧化剂氢、碱性和必需矿物质。

A significant part of the hype around coral calcium comes from the way that coral calcium is reaped from the corals in Okinawa, Japan. Okinawans are believed to have the longest life expectancy on the planet and have low rates of coronary illness and malignant growth.

对珊瑚钙进行大力宣传的一个重要部分来自于从日本冲绳的珊瑚中获取钙的方式。冲绳人被认为是地球上寿命最长的，他们的冠状动脉疾病和恶性肿瘤的发病率较低。

IMPORTANCE OF ANTIOXIDANT FOOD & WATER

抗氧化食物和水的重要性

Antioxidants are really important for maintaining a healthy life. Ensuring a good amount of antioxidants in our diet can reduce the chances of cancer, lower high blood pressure, improve wrinkles and help our heart stay healthy amongst many other benefits. Their job is to fight 'free-radicals' which are the causes of many health problems and are produced due to stress, processed food, smoking, they're even caused by UV light and pollution. These things are like bad movie sequels: everywhere, unstoppable and harmful.

抗氧化剂对保持健康非常重要。确保我们的饮食中含有足够的抗氧化剂可以降低患癌症的几率，降低高血压，改善皱纹状况，保持我们心脏的健康。它的作用是对抗“自由基”，自由基是许多健康问题的根源，是由压力、加工食品、吸烟产生的，它们甚至是由紫外线和污染引起的。它们就像糟糕的电影续集一样：无处不在，势不可挡，有害无益。

IMPORTANCE OF ANTIOXIDANT FOOD & WATER

抗氧化食物和水的重要性

That's why antioxidants are so important and they're just as easy to get as their nemeses are. They're found in fruit, oil, even coffee and wine, so here's the excuse for a second glass this weekend. Read on to find out more:

这就是为什么抗氧化剂如此重要，它们就像它们对手一样容易获取。它们存在于水果、食用油、甚至咖啡和葡萄酒中，所以我们有正当的理由在这个周末再来一杯了。继续往下读，了解更多：

Alkaline water is a powerful antioxidant. Anti-oxidants help protect our bodies from free radicals that can cause various health problems. Free radicals are groups of atoms that can damage our body by hurting the immune system.

碱性水是一种强大的抗氧化剂。自由基会导致各种健康问题，而抗氧化剂有助于保护我们的身体免受自由基的侵害。自由基是成群的通过破坏免疫系统来破坏我们的身体的原子。

Oxidation is measure by ORP value. (Oxidation reduction Potential) ORP is a term used frequently in the water treatment & food processing industry. ORP measuring Value in "mV" (millivolts), The more Negative - mV the more it benefits to human body, boost immunity, fight aging and maintain good health. Likewise, positive + mV value can bring harm to human body, causing un nature aging, reducing immunity and damaging to health.

氧化是用ORP值(氧化还原电位)来衡量的。ORP是水处理和食品加工行业中经常使用的术语。ORP值以“mV”(毫伏)表示，负mV越大，越有利于人体，越能增强免疫力，更加抗衰老，保持健康。反过来，正mV值越大，对人体造成危害就越多，造成自然衰老，免疫力降低，损害健康。

BENEFITS OF ALKALINITY & ANTIOXIDANT

Harm of Free Radicals

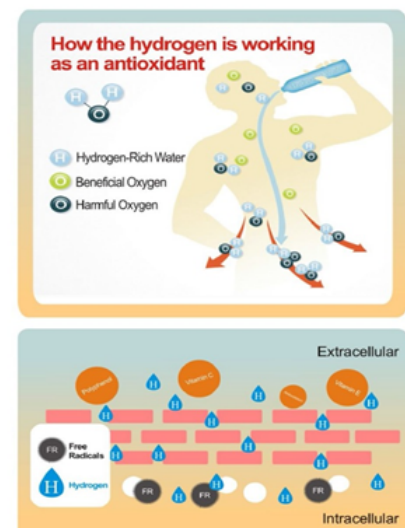

What is the harm of the Free Radicals?

The free radicals in our bodies have very strong oxidizing capabilities. They will cause the harmful Oxidative Stress and the sub-health state. Many research findings revealed that oxidative stress may induce cell apoptosis. The free radicals will attack and damage the cells in our organs to cause and accelerate various diseases and aging.

MEDICAL ADVANTAGES OF DRINKING HYDROGEN WATER

饮用氢水的医学优势

1. Hydrogen-rich water is an excellent cell reinforcement that prevents oxidation, and repairs cells affected by oxidation. It also prevents cells from becoming free radicals. Hydrogen water is yielded in well-known filtration processes and is known to prevent cancer. Oxidized cells impede good health and are associated with a number of medical concerns including, malignancy, cognitive, physical, and neurological disorders.

2. It lowers the risk of metabolic disorders, including obesity, diabetes, and dyslipidemia. According to a recent report published by the Journal of Clinical Biochemistry and Nutrition, hydrogen water drastically reduced metabolic disorders in 20 survey participants after they drank 1.5 to 2 liters of it every day for two months. Drinking hydrogen water may be responsible for building the superoxide, dismutase – a cancer-prevention substance which stalls the production of thiobarbituric acid, a precursor to metabolic disorders.

它可以降低代谢紊乱的风险，包括肥胖、糖尿病和血脂异常。根据《临床生物化学与营养杂志》最近发表的一份报告，在20名调查参与者连续两个月每天饮用1.5至2升氢气水之后，他们的代谢紊乱症状得到了显著改善。喝氢气水可能会产生超氧化物歧化酶——一种癌症预防物质，它会阻止代谢紊乱的前体——硫代巴比妥酸的产生。

3. Hydrogen water enhances learning and improves performance at work. Regular utilization of hydrogen water lessens oxidation in the brain and enhances memory formation and learning. This means that you'll become sharper and well-protected from neurodegenerative risks.

氢水可以促进学习能力，改善工作中的表现。有规律地利用氢水可以减少大脑中的氧化作用，增强记忆的形成和学习能力。这意味着你会变得更敏锐，也能很好地避免神经退行性疾病的风险。

4. It protects the skin. The skin is constantly exposed to sunlight as well as physical dangers. Scientists recommend hydrogen water for the reduction of free radicals on the skin and the facilitation of Type I collagen in the dermis to improve suppleness and injury recoverability.

它能保护皮肤。皮肤经常暴露在阳光下，还会造成身体上的危险。科学家们建议使用氢水来减少皮肤上的自由基，促进真皮中的I型胶原蛋白的形成，从而提高皮肤的柔韧性和损伤的可恢复性。

Molecular hydrogen has therapeutic benefits in virtually every organ in the body where it exerts antioxidant, anti-inflammatory, anti-obesity, and anti-allergy actions with no known side effects.

氢分子几乎对人体的每个器官都有治疗作用，它能发挥抗氧化、抗炎、抗肥胖和抗过敏的作用，而且没有已知的副作用。

IS DRINKING HYDROGEN WATER WORTH IT?

有必要使用氫水吗？

Before it tried it out, I was pretty darn wary of hydrogen water.
在尝试之前，我对氫水相当谨慎。

There's really a ton of research out there about hydrogen water, but I have done some digging and have come up with its most immense medical benefits.

确实有大量关于氫水的研究，但我做了一些更深入的研究，总结出了它最大的医学益处。

So is it worth drinking? There's a surefire way to know, and that's by trying it out.
那么它值得喝吗？有一个确定的方法可以知道，那就是尝试一下。

MEDICAL ADVANTAGES OF NATURAL ALKALINE MINERAL WATER

天然碱性矿泉水的医疗优势

1. Natural Alkaline Water helps to meliorate acid reflux (heartburn), which can make one feel uncomfortable. Heartburn is caused by pepsin – a protein that thrives in an acidic environment. Drinking water with a pH level of 8.8 prevents heartburn by checking acidity.

天然碱性水有助于改善胃酸倒流(烧心)，使人感到不舒服。胃灼热是由胃蛋白酶引起的，胃蛋白酶是一种在酸性环境中生长的蛋白质。pH值为8.8的饮用水可以通过检测酸度来防止胃灼热。

2. It fights metal toxicity - especially in urban areas where tap water contains lethal minerals that hamper its potability, and affects body processes. Natural antacids aid the liver in eliminating these substances via urine.

它可以对抗金属毒性——尤其是在城市地区，那里的自来水中含有致命的矿物质，阻止了水的可饮用性，并影响身体机能。天然的抗酸剂通过尿液的形式帮助肝脏清除这些物质。

3. Alkaline Water improves heart health by orchestrating blood flow in and out of the heart, preventing conditions like diabetes, hypertension, and elevated cholesterol, which are all connected to cardiovascular diseases. It also prevents the development of plaque.

碱性水通过协调血液进出心脏来改善心脏健康，预防糖尿病、高血压和胆固醇升高等与心血管疾病有关的疾病。它还可以防止斑块的发展。

4. It facilitates weight loss as toxic metals are lipophilic, leading to gut and full-body fat.

它有助于减轻体重，因为有毒金属是亲脂的，导致肠道和全身脂肪的增加。

MEDICAL ADVANTAGES OF NATURAL ALKALINE MINERAL WATER

天然碱性矿泉水的医疗优势

5. Alkaline Bottled Water enhances the performance of athletes who exert themselves regularly as it improves hydration after an anaerobic exercise. Further research has shown that it may help the body to produce lactic acid - which aids in muscle build-up painlessly.

碱性瓶装水可以提高运动员的运动能力，因为它可以改善无氧运动后的水合作用。进一步的研究表明，它可能有助于身体产生乳酸，从而帮助肌肉的生成且感受不到任何疼痛。

生活分享：我今年六十歲，水对身体很重要，我之前用过好多个牌子水机，包括蒸馏水，最后还用过超贵的电解鹼性水，都不适应我们身体，到目前为止，我正在用Coral Pure 这个品牌的水机，对我的身体改变极大，消化系统也改善很多，列如便秘，胃酸问题，膝蓋酸痛，还有脸上有腊黄的问题，每天用Coral pure 的水早晚洗脸，有得到很大的改善。朋友见到我，都觉得我的脸很白，很滑，追問我擦什么東西，我只是喝好的水，用好的水来洗臉。

对我各人的精神也有幫助，從早上六点多忙到晚上十一点多，都不觉得累！

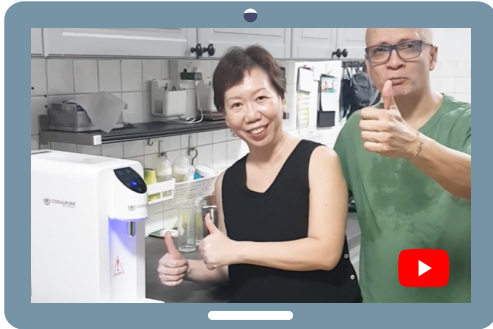

感恩Coral Pure！

祝願天下人，都有健康身体！
